```
<!DOCTYPE html>
<html>
<body>
<h2>The <b>let</b> Keyword Creates Variables</h2>

<br/>
<a href="fight">
clet x, y;
x = 10;
y = "Saya belajar javascript";
z = 10;
document.getElementById("demo").innerHTML = (x + z);
</script>
</body>
</html>
```

Hasil dari kode diatas yaitu: 20 dari 10 + 10

```
<!DOCTYPE html>
<html>
<body>
<h2>The <b>let</b> Keyword Creates Variables</h2>

<br/>
<a href="font-size-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-state-sta
```

Hasil dari kode diatas yaitu: 10Saya belajar javascript

Hasilnya hanya digabung saja karena var y bukan termasuk integer (angka)
